

	MATERIAL SAFETY DATA SHEET (MSDS) According to 1907/2006/EC, Article 31	Page number:6
		Date of issue: 30.04.2025
		Issue number: 1

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product name:	HYDROSTOP LIQUID RUBBER – liquid rubber, transparent waterproofing
Substance:	HYDROSTOP LIQUID RUBBER is a special sealing emulsion for walls, flat roofs, basements, bathrooms, foundations, swimming pools, fountains, balconies and any other concrete surfaces.
Company:	NILEGO GROUP DOOEL
Address:	Str.1st, No.219 Dolno Konjare, 1300 Kumanovo
Telephone number:	+389 78 267-878 +389 78 268-158
E-mail:	nilego_group@yahoo.com
Web:	www.nilego.com
Emergency telephone number:	Phone number of the National Center for Control and Information on Chemical Poisoning: + 389 2 314 7635. Working hours: 24 hours every day.

SECTION 2: HAZARDS IDENTIFICATIONS

Chemical classification	
The product meets the requirements for classification, labeling and packaging (Regulation 1272/2008) – CLP/GHS system.	
Label Elements:	
According to CLP / GHS - system:	
Danger:	
H- statements:	H318 - May cause serious eye damage. H302 - Harmful if swallowed.
P- statements:	P233 - Keep container tightly closed. P273 - Avoid release to the environment. P332+P313 - Get medical advice/attention if skin irritation occurs. P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes, remove contact lenses, if present and continue rinsing if possible. P501 - Dispose of container in accordance with local regulations
Hazard pictograms:	
Other dangers:	There is none.

	MATERIAL SAFETY DATA SHEET (MSDS) According to 1907/2006/EC, Article 31	Page number:6
		Date of issue: 30.04.2025
		Issue number: 1

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS-number
Polymer	/
Water	/
Antifoam	/

SECTION 4: FIRST AID MEASURES

Description of first aid measures	First aid measures apply when using the product
In case of eye contact:	In case of eye contact, the eyes should be rinsed immediately with water. If the product gets into the eyes of a person wearing contact lenses, it is advisable to remove the lenses before rinsing with water. Seek immediate medical attention.
In case of skin contact:	Contaminated clothing should be removed immediately, the area should be washed thoroughly with plenty of water, and medical attention should be sought if redness, itching, or peeling of the skin occurs.
Ingestion:	Seek medical attention immediately and show the product label. Do not induce vomiting or do anything else unless directed to do so by a doctor. Act immediately to prevent further irritation of the mucous membranes of the mouth, throat or stomach.
Inhalation:	Seek medical attention immediately, remove the exposed person to fresh air, in a position comfortable for breathing. If it is believed that fumes are still present, a suitable mask or self-contained breathing apparatus should be worn.
Emergency medical care and special treatment	Medical attention: Contact a poison control specialist immediately if large quantities are swallowed or inhaled. Specific treatments: None.

SECTION 5: FIRE-FIGHTING MEASURES

Fire extinguishing agents:	Keep away from heat sources. In case of fire, extinguish flammable liquids with carbon dioxide, water mist, dry powder.
Special hazards arising from substances and mixtures:	In the event of a fire, toxic gases such as nitrogen oxides (NOx) and carbon monoxide (CO) may be released.
Tip for firefighters:	Immediately evacuate the area. Mandatory use of breathing apparatus, protective clothing, gloves, boots, eye and face protection. Protective equipment for firefighters from ref. Standard

	MATERIAL SAFETY DATA SHEET (MSDS) According to 1907/2006/EC, Article 31	Page number:6
		Date of issue: 30.04.2025
		Issue number: 1

	EN 469, protective gloves for firefighters (ref. standard EN 659) and boots in combination with appropriate respiratory protection (ref. standard EN 137).
--	--

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precaution, protective equipment and procedures in the event of an accident:	In case of an accident, evacuate personnel to a safe place immediately. Wear personal protective equipment.
Environmental caution:	Keep the product in its original packaging. Avoid discharge into drains or surface waters. For large spills: transport in plastic containers and treat in accordance with national legislation. For small spills: use non-flammable absorbent material and place the quantity in a container for later use.
Measures to be taken they also take material to prevent the spread and remediation:	Unprotected personnel should be removed from the area. Personnel involved in the clean-up should wear protective clothing. Collect the spilled quantity in a suitable container, fill it with an absorbent, mix it and collect it mechanically.
Refer to other chapters:	See Chapters 8 and 13

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling:	The product should be stored in its original packaging and used according to the instructions for use. Ensure good ventilation.
Conditions for safe storage, including incompatibilities:	The product should be stored in its original packaging. Store tightly closed and in a dry place, with good ventilation and away from food. The packaging should be closed and protected from physical damage. After use, the packaging should be treated according to legal regulations.
Special ways of use:	There is none.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure control parameters:	To limit exposure to the product, use personal protective equipment (protective mask, safety glasses, protective suit) and equipment according to the technical protection measures provided. Before reuse, protective clothing and equipment should be thoroughly washed and cleaned. Ensure good ventilation in the workplace.
Exposure control and personal protection:	
Eye Protection:	Use safety glasses, a protective mask, a protective suit or a face shield. Standard EN-166.
Hand protection:	/
Protection of other parts of the body:	/

	MATERIAL SAFETY DATA SHEET (MSDS) According to 1907/2006/EC, Article 31	Page number:6
		Date of issue: 30.04.2025
		Issue number: 1

Respiratory protection:	When using the product, avoid inhaling it. Ventilation and the use of protective equipment are recommended
--------------------------------	--

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Thick mixture
Color:	White
Odor:	Product characteristic
Scent threshold:	/
pH (1%p-p):	8,38
Dry matter:	86,3%
Melting point:	/
Boiling point:	/
Self-igniting:	The product is not self-igniting.
Explosive Hazard:	The product is not explosive.
Relative Density:	1,031 g/cm ³ (20°C)
Solubility:	Soluble in water.
Oxidizing properties:	Non-oxidizing liquid

SECTION 10: STABILITY AND REACTIVITY

Reactivity:	No data.
Chemical stability:	The product is stable under normal conditions of use.
Possibility of hazardous reactions:	None known.
Incompatible materials:	Oxidizing agents. Anionic compounds.
Hazardous decomposition:	There is none.

SECTION 11: TOXICOLOGICAL INFORMATION

Toxicological data for the mixture	
a) Acute toxicity	
Oral (LD50)	No data
Inhalation (LC)	No data.
Dermalno (LD50)	No data.
b) Corrosive skin damage / irritation:	Non-corrosive liquid.
c) Severe eye damage / eye irritation:	No data.
d) Sensitization of the respiratory organs or skin	May damage the mucous membrane of the respiratory tract, causing coughing, choking and shortness of breath.
e) Mutagenicity of germ cells	No mutagenic properties.
f) Carcinogenicity	No carcinogenic properties.
g) Toxicity after reproduction	No data.

	MATERIAL SAFETY DATA SHEET (MSDS) According to 1907/2006/EC, Article 31	Page number:6
		Date of issue: 30.04.2025
		Issue number: 1

h) specific toxicity to the target organ - single exposure	No data.
i) specific toxicity to the target organ - multiple exposure	No data.
j) Danger of aspiration	No data.

SECTION 12: ECOLOGICAL INFORMATION

Toxicity	The product is not classified as toxic to the environment.
Persistence and degradability:	Biodegradable.
Bioaccumulation potential:	No data.
Land mobility	No data.
Results of PBT and VPvB assessment	No data.
Other harmful effects	There is none.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods	
a) Product residues	Do not dispose of by discharging into the sewage system.
b) Uncleaned packaging	Packaging is handled in accordance with local / regional / national / international regulations, i.e. in accordance with the Law on Waste Management.

SECTION 14: TRANSPORT INFORMATION

UN number	No data.
UN name for the load in the conveyor	No data.
Transport hazard class	No data.
Packaging group	No data.
Danger to the environment	No data.
Special precautions for user	No data.
Transport in broken condition	No data.

SECTION 15: REGULATORY DATA

Safety, health and environmental regulations	
Law on Chemicals - Official Gazette of the Republic of Macedonia, No. 145/2010	
Law on Amendments to the Law on Chemicals - Official Gazette of the Republic of Macedonia, No. 53/2011 (Guidelines for the Preparation of a Safety Data Sheet)	
Chemical safety assessment	
The product is not classified as dangerous according to the EC Directive:1999/45/EC and the ZZVVHVP (DV 114/2003).	

	MATERIAL SAFETY DATA SHEET (MSDS) According to 1907/2006/EC, Article 31	Page number:6
		Date of issue: 30.04.2025
		Issue number: 1

All ingredients in the product are registered in the EU.

SECTION 16: OTHER INFORMATION

This safety data sheet provides a clearer picture of the safety and health information regarding the product and how to use it safely. Each user should read this safety data sheet and take into account the information on how to handle and use the product. If clarification or further information is required, the user should contact the manufacturer. All information on this safety data sheet is correct and up-to-date. This document should not be seen as a guarantee for a specific property of the product. No guarantee is given for the accuracy, suitability or completeness of this sheet. Since the use of the product is not under our direct control, it is the user's responsibility to comply with applicable laws and regulations regarding safety. We assume no liability for improper use of the product.
